

K-LOVE radio positively touches the lives of many people throughout the United States. It is uplifting to many people, and there has never been a time that I regret supporting it for two hours a month. I could spend the \$80 in many other ways, but I know it is a worthy cause. It is the only station I will listen to because my family deserves a quality station that needs no censoring as some of the other trash-talking stations. Taking K-LOVE off the air would be a tremendous mistake, because it is a wonderful tool used to promote peace in the world; moreover, it connects millions of people to a loving God.

Please reconsider to not expand the LPFM. I want to keep my K-LOVE Station and I know I'm not alone in this matter.
